Introduction

Jyoti Electronics is a trusted techno-trading company based in Ahmedabad, India, with a proven track record since 1981. Since 2000, we have expanded our offerings to include RF/Microwave design software and associated hardware solutions.

We provide end-to-end solutions for design and simulation, offering industry-standard software tools for circuit simulation, system simulation, and EM simulation. These tools enable you to design and analyze RF and microwave components across a broad frequency range, from static to optical frequencies.

With a legacy in providing space-qualified components, we also offer a comprehensive range of high-quality products, including cables, cable assemblies, connectors, antennas, and an extensive selection of test and measurement instruments.

Mission & Vission

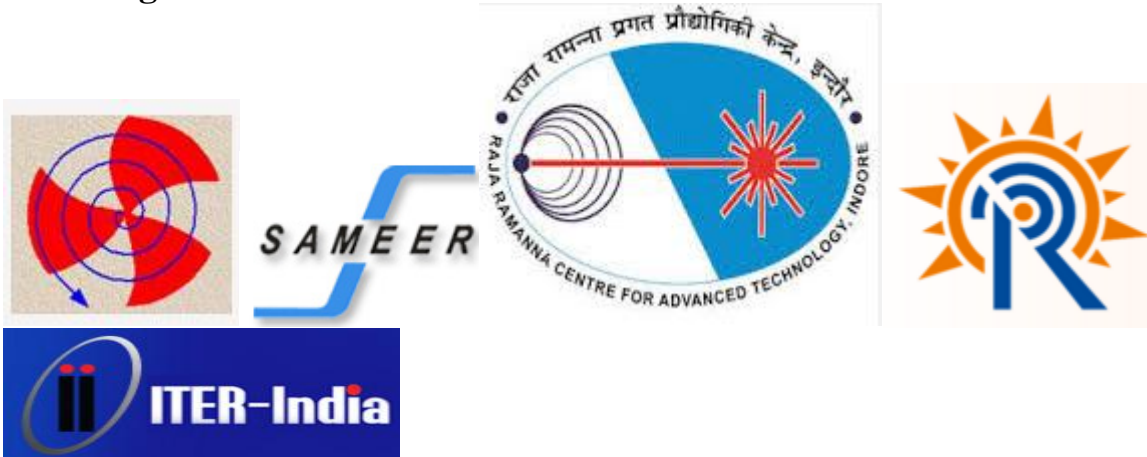

- To keep striving to achieve the best and provide only the best to our customers.
- To continuously achieve success through hard work and determination.

Customers

- Defence research

❑ High tech

❑ Aerospace research

❑ Production

Some of our most valued customers and users are all labs of DRDO, DAE, RRI and other research Labs, and leading aerospace and defense manufacturers all over India along with all IITS, NITs and Engg. Colleges.
